# WHO WE ARE

Headquartered in Mooresville, North Carolina, SRI Performance has been providing quality performance parts and services to the racing industry for more than 20 years. Located in the heart of "Race City, USA," SRI occupies 50,000 square feet of distribution space, fully stocked with high-quality performance parts, tools, machinery, industrial products, shop supplies and pit equipment. SRI also has a full-service branch in Brownsburg, Indiana.

In addition to new inventory, SRI offers an enormous variety of high quality used parts at low prices. Customers can browse a vast selection of used race parts such as seats, helmets, shop tools, pit boxes, engines, engine components, suspension parts, braking systems, machinery, and a whole lot more.

In addition to performance parts, SRI distributes a wide variety of industrial supplies and shop supplies. This includes fasteners, tools, tapes, adhesives, solvents, sorbents, abrasives, brushes, clamps, saw blades, cutting tools, cleaners & degreasers, autobody supplies, safety supplies, welding supplies and welding gases.

With a crimping machine and an enormous inventory of hoses and fittings, SRI can build custom hoses and lines in whatever lengths you might need. SRI carries Brown & Miller, Wiggins, and Fragola fittings. Hoses include braided rubber, braided stainless and PTFE high-pressure lines.

SRI is both a distributor of Safecraft fire suppression systems and the East Coast Service center for Safecraft Systems. SRI is authorized to repair systems, help design systems, and recertify and refill Safecraft fire suppression cylinders.

SRI's Technical Specialists are highly dedicated and extremely knowledgeable. We have experts in suspension systems, drivetrain systems, performance race engines, automotive hardware, autobody supplies, braking systems and much more. These specialists are always available to offer their advice and their assistance.

# WHAT WE DO

Located in Mooresville, NC, Stock Car Steel and Aluminum has been an industry leader for more than 25 years. We have been supplying metals and plastics to the motorsports industry since 1996. As the primary supplier of materials to the NASCAR racing industry, Stock Car Steel has built its brand and its reputation by offering a diverse product mix, excellent customer service, competitive pricing and free local delivery. As the company has grown, Stock Car Steel has branched out to service virtually every form of motorsports. In addition, Stock Car Steel also services many businesses and industries outside of motorsports. Some of these include machine shops, the marine industry, construction, educational, vocational and university programs, restoration companies, engineering firms, designers and decorators, hobbyists, do-it-yourselfers, and many more. Although Stock Car Steel continues to grow and expand, we still pride ourselves in offering our customers that same small business feel that they have come to expect.

Stock Car Steel offers a wide range of steel, aluminum, and plastic products. Steel and aluminum are offered in sheets, bar stock, tubing and structural forms such as I-Beam and Angle.
