

ACCESSPORT

The COBB Accessport is the world's best selling, most flexible, and easiest to use ECU upgrade solution for your truck. Unlock power hidden within the vehicle by replacing conservative factory settings with more aggressive calibrations. Follow our staged upgrade path with pre-loaded Off The Shelf (OTS) maps or use custom mapping for any modification level. It's the last engine management solution you'll ever need.

CRUISE

with smooth shifting and
power at your fingertips

The Ford Raptor marked the entry of COBB's first truck product. We've since expanded support to Ford F-150s with 3.5L and 2.7L EcoBoost engines, Maverick, Bronco and more. The list is growing every day. Each of these trucks is very capable in its stock configuration, but our COBB high performance parts will transform your truck into a whole new beast.

REDLINE SERIES

Our Redline products are constructed from premium materials, sparing no expense in quality or design. Intake systems, coolant covers, and radiator shrouds in this line feature carbon fiber as a main component, complemented by black anodized or E-coated hardware.

EXHAUST

The COBB F-150 Cat-Back Exhaust brings classic styling and high quality construction to your F-150's exhaust. As a direct factory replacement with no tuning required, it's a simple way to improve the looks and exhaust note of your EcoBoost F-150.

AIR INDUCTION

COBB Intakes check all the boxes for a simple to install bolt-on upgrade the factory piping from the air-box is replaced with dual mandrel bent aluminum tubes to maximize airflow while custom silicone couplers ensure perfect OEM-like fitment.

STAGE PACKAGES

Our engineers rigorously test Hard Parts to find the right order and combination for the best incremental power gains. Maps are created and tested to tune the ECU so that it supports and takes advantage of each part. With these results, COBB is able to create the Upgrade Path of Staged Packages that have all the necessary parts to upgrade your Truck.

COOLING

Upgrading the stock intercooler is a no brainer as the best bang for your buck modification on a F-150 EcoBoost or Raptor. Efficiency is the name of the game and COBB intercoolers will get the most out of your stock turbos - with plenty left over for future upgrades to go along with it.

EXTERIOR

COBB and Titan 7 produced a fully forged wheel with anti slip knurling for added traction along with triangulated inner spoke machining to reduce weight while keeping a sturdy structure. The result is a premium Sport Off Road Wheel that is one of the lightest of its kind in the world. Reduced unsprung weight improves driving, and handling.
